MADE IN MANITOBA

HANDS DOWN, CANADA'S BEST MITTS

INTEGRITY IS LOOSELY DEFINED as keeping a promise. A perfect example of something that keeps its word is Raber Glove Manufacturing's iconic Garbage Mitts®. If you've ever worn a pair, *you know*. For over 80 years, Raber has crafted super-warm mitts, plus 20 other styles, in Winnipeg. "The mitts aren't just made *in* Manitoba, they're made *for* Manitoba," says Howard Raber, owner and grandson of founder Abraham Raber. "Our products have been loved for decades, and they're the go-to for anyone

who wants to brave Manitoba winters with warm hands." Raber mitts and gloves have been available at CAA Stores since 2014. "When we first launched Raber mitts in our stores, the sales were phenomenal," says Hailey Belluk, retail buyer at CAA Manitoba. "We actually struggled to keep up with demand. Now, we ensure we're always well stocked with several different styles and sizes." CAA Members save on Raber products at shop.caamanitoba.com and at CAA Stores.
